

APHORISMS

(A Concise Statement of Principle or Truth)

We have found the following aphorisms extremely useful as we move forward united in mind, body and spirit to live and carry out the principles of Dr. Martin Luther King, Jr.

1. Father **forgive them, for they know** not what they do (Luke 23:34).
2. Cast the first stone...."He who is innocent (pure and clean) should cast the first stone" (John 8:7).
3. Every saint has a past and every sinner has a future.
4. Everyone is to create his/her own Garden of Gethsemane - go into it and get your own demons out.
5. You must love everyone in order to go to heaven.
6. "Whosoever.....shall not doubt in his heart, but shall believe that what he saith cometh to pass, he shall have it." Source: Mark 11:23

We also reference the works of Napoleon Hill (Think and Grow Rich) and W. Clement Stone (Positive Mental Attitude) by accentuating the positive. "In every adversity there is a seed of greater benefit", by Napoleon Hill.

About novelty in psychosocial research: Psychosocial basic research deals with novelty of the person versus research about things. It (psychosocial research) reflects

a breakthrough that the person has discovered within self, about self; i.e., Jesus Christ: "I am that I am". Essentially, it boils down to the integrity of the person. Jesus Christ is who he said he was. Jesus said in St John 14:12, "Verily, verily, I say unto you, he that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father". There is no evidence, that we know of, in the literature down to this day that anyone had said that "I am greater than Jesus because I believed what Jesus said in St John 14:12".

The research on Humaculture (how to raise healthy human babies) is the psychosocial basic discovery of Dr. Nkosi KM Ajanaku, Esquire. He made the discovery about himself after standing on the shoulders of Jesus Christ, Thomas Jefferson, Abraham Lincoln, Lyndon B. Johnson and Dr. Martin Luther King, Jr. He started by giving integrity to Dr. King's mind and then diagnosed scientifically the root cause of the social maladies in the country and within the people. He developed remedies on how to live out the American Dream that Dr. King prophesied. If there is anyone you know who is the answer to living the dream, we will stand down (put our research on hold) and get behind that person.
